

April 15, 2020

Greetings Pathways Families:

The staff of Pathways In Education would like to express a humble thank you for your continued support during this unprecedented time. With the COVID-19 pandemic continuously evolving and having an impact on daily routines, Pathways In Education is committed to keeping you abreast of operational changes, as well as making you aware of new resources to support student success. With that said, our school community has remained in communication with governing officials for guidance around health, safety precautions and student academics.

In an effort to maintain open lines of communication with all stakeholders, Pathways In Education has been apprised of new information regarding academics, social events, and executive orders. The following guidance has been provided:

- Governor Bill Lee has extended the Stay-at-Home executive order until April 30, 2020. *Please keep in mind this date is tentative.*
- The Tennessee Department of Education is slated to amend graduation requirements for the 2019-2020 school year—more information is forthcoming.
- May 19th graduation has been postponed—a new date will be forthcoming.
- Students can utilize the Shelby County Schools Homework Hotline for support with academics. **Open Monday through Thursday—4pm to 8pm CST @ 901-416-1234 or 615-298-6636**

We as a school community will continue to communicate any new information received from governing officials as this situation continues to unfold. Again, we thank each of you for your support through trying times, and remember to remain positive and safe.

Respectfully Submitted,

Roderick L. Payne, Ph.D.
Principal
