

April 24, 2020

Greetings Pathways Families:

We, the staff of Pathways In Education, hope you are remaining safe and keeping your families healthy. As we continue to navigate through uncharted territory, our governing officials are taking steps to bring Memphis communities back to a level of normalcy. With that said, we must continue to adhere to all directives provided and remain positive and support one another when needed.

While our centers remain closed during this pandemic, student learning has not ceased as teachers are still providing daily instruction for students. As Principal, it is important to maintain open lines of communication with students, parents, families, and stakeholders as it pertains to important school matters and dates. We will continue the process of open communication during the period of social distancing and distance learning. During this timeframe, ALL staff ask for your continued support as it is critical for students to continue completing assignments to progress toward the goal of GRADUATION. Our distance learning platforms can serve as a great opportunity for students to continue making academic progress.

Parents, we ask for your continued support through the following:

- Ensure your child is attending and checking in with his/her teacher regularly
- Ensure your child is turning in assignments on a weekly basis
- Remain in contact with your child's teacher to monitor progress
- Provide a quiet workspace for your child to complete homework
- Inquire about what your child is learning
- Help check progress and understanding
- Most importantly—stay positive. We're all in this together!

If the staff of Pathways can help support you or your child with learning needs, please contact your child's campus. We have established a protocol to return messages for assistance. Again, we thank each of you for your support through trying times.

Respectfully Submitted,

Roderick L. Payne, Ph.D.
Principal
