

May 15, 2020

Greetings Pathways Families:

The Pathways family and staff hope all is well with each of you as we continue to progress through the COVID-19 pandemic. As our economy begins to reopen, we encourage each of you to make this a gradual process with new updates being published to us daily. We thank you for your continued dedication to students and staff, and we want to ensure students have access to critical support needed for success.

While our centers remain closed during the pandemic, we want to reiterate that student learning will NOT cease. Teachers are requiring academic work to be completed and are providing daily instruction for students through different platforms. We are beginning to move into the summer months, and it is important for students to remain engaged with their learning. We will continue the process of open communication during this time, and our weekly updates are as follows:

- If your student is a **SENIOR**, please contact your student's Independent Study Teacher for new updates about **Community Service** opportunities.
- TDOE is providing FREE online at-home instructional videos you can do with your students through ReadyRosie. The program is FREE through September 31st, and parents can register at the following link: <https://readyrosie.com/tn/#ReadyRosieTN>
- Summer SGI classes will begin soon, and teachers will be contacting students regarding the process and expectations for courses.
- If your student has a school issued laptop not being utilized, please inform your student's teacher of this matter. We want to ensure we are providing technology assistance to those who need this support.
- Please ensure your child is completing assignments and meeting with teachers during designated appointment times. Parents we NEED your continued support with this endeavor to help students remain on track.
- **JUNE 5th** will be the **FINAL DATE** for ALL SENIORS to have courses completed.

If the staff of Pathways can help support you and your child with learning needs, feel free to contact centers. We have established a protocol to return messages for assistance. Again, we thank each of you for your support during these trying times, and we hope you remain safe and positive.

Respectfully Submitted,

Roderick L. Payne, Ph.D.
Principal
